

```
#include <iostream>

using namespace std;

int main() {
    // Menampilkan bilangan ganjil
    cout << "Ganjil : ";
    for (int i = 1; i <= 35; i += 2) {
        cout << i << " ";
    }

    cout << endl;

    // Menampilkan bilangan genap
    cout << "Genap : ";
    int j = 2;
    while (j <= 34) {
        cout << j << " ";
        j += 2;
    }

    cout << endl;

    return 0;
}
```
